**User stories**

**Customer**

As a customer, I want to understand what the company I'm purchasing from does, so that I have context about its products.

As a customer, I need to be able to browse products and product details so that I can find what I'm searching for and how many items are left.

As a customer, I want to be able to sign up for a newsletter so I can stay up to date on the company and its products.

**Administrator**

As an administrator, I can log in and see/make edits to the list of available products (quantity and price of each item)

As an administrator, I want to be able to see who signed up for my newsletter (current plan: export from database, not from a front-end webpage)
